Monitoring and Evaluating Framework for Stakeholders community

Important notice:

In this sheet will be listed **all the stakeholders contacted**. The purpose is from one side to make sure that the same person is not invited to participate to more than one community, by more than one partner, but also to allow the possibility to all partners who are not in charge of a community to suggest potential stakeholders to be contacted. Stakeholders listed here include **all target countries as well as from other countries** (i.e. to be involved in international seminars and webinars). Lastly the sheet helps tracking the **letters of commitment received**.

Record n.	Partner	Country (choose target country or "other")	Name of the country when "other"	Stakeholders contacted		
				Name/Last name	Organization	Type of stakeholders
				227	1174	916
